

Sustainable Energy Communities – an integrated approach

Aideen O'Hora

25 May 2011

SEAI – Sustainable Energy Act 2002

Mission...

...To play a leading role in transforming Ireland into a society based on sustainable energy structures, technologies and practices.

Objectives

- Energy efficiency
- Low carbon energy resources
- Innovation and Integration

The Starting Point

The starting point...

Structured Energy Management

Collaboration

Structure

The Sustainable Energy Communities Programme

Bottom-up, Top-down

The Vision

... to stimulate a national move towards sustainable energy practice through demonstration of best practice in six exemplar communities by 2015, which in turn will inform and build capacity through the SEC Network

The Purpose

... The purpose of the programme is to be a catalyst on the ground to deliver national targets and a platform for wider debate and strategic influence at a national and European level...

SEC Support

There are three levels of support currently available through the SEC Programme:

Dundalk - the Living Laboratory

Dundalk - social, economic and environment achievements

Environmental

Social

Economic

Annual CO₂ savings against target

Total CO₂ savings per sector

The Innovation is the Integration
